

Altaius SI

IT Strategy & Consulting

Strategy should turn technology ambition into an **execution plan.**

PILLAR 01

3 to 5 year transformation roadmaps

PILLAR 02

Enterprise architecture and governance

PILLAR 03

Cloud and data sovereignty strategy

★ VISION 2030 FOCUS

Vision 2030 alignment

Technology strategy fails when spend, architecture, and accountability do not move together.

THE ALIGNMENT GAP

Key drivers of execution failure in complex enterprise models.

Investments are approved without a clear path to measurable outcomes

Governance slows execution instead of enabling it

Sovereignty, compliance, and cloud decisions are handled too late

IT operating models are not built for speed, quality, and control

We help leadership move from ambition to an executable roadmap.

Transformation Roadmaps

Develop 3 to 5-year executable plans with clear milestones, dependencies, and success metrics. Includes dedicated CIO advisory for robust business cases, vendor decisions, and absolute executive alignment.

Enterprise Governance

Implement scalable, secure, and standards-based enterprise architecture. We design robust IT operating models that cover strategic sourcing, organizational structure, and comprehensive capability uplift.

Sovereignty & Vision 2030

Ensure absolute compliance with cloud and data sovereignty strategies including residency and localization planning. Perfectly align your transformation initiatives with Vision 2030 and Saudization objectives.

Our strategy model is built to **land**, not sit on a shelf.

01

🔍 Discover

- ✓ Stakeholder interviews
- ✓ Current-state assessment
- ✓ Constraint mapping
- ✓ Opportunity identification

02

✍️ Design

- ✓ Execution planning
- ✓ Continuous improvement

— THE ACCOUNTABILITY PRINCIPLE —

Altaius SI brings strategy,
engineering, and operations into
one line of accountability.

🕒 Strategy tied to delivery
accountability

🏢 Deep understanding of
KSA regulatory and market
realities

⚡ AI-first thinking informed
by real production
experience

🕒 Faster time to value through
focused blueprint work, not
long studies

Execution credibility matters as much as strategy quality.

Altaius SI highlights leadership-team delivery experience from prior roles across the region, processing complex capabilities into proven results.

LEISURE & ENTERTAINMENT
